1 Step 1 - Setup Users and Passwords

When different people are using the same system, it is very important to create "Users" and unique passwords for all of them. Novtel keeps record of every action on the system, therefor "Users" must log off whenever they leave their workstation

• Click on "Setup - Users / Passwords"

- In the "General" tab, the following must be set up:
 - 1. Automatic Refresh Interval. We have set the interval at every 60 seconds
 - 2. The number of rows on the grid represent the number of "Storage Units" to be viewed simultaneously -15 rows will allow you to see the entire screen at one glance - including the blue and block containing booking details when the mouse is moved over the booking on the grid. Also note that the number of rows will only come into effect when the "Storage Units" have been created
 - 3. The number of columns on the grid represent the number of days to be viewed simultaneously. We always select 45, since it allows us to view bookings that stretches over a month and a half
 - 4. When a Unit is rented on a month-to-month basis and not a 6 month or 12 month contract the "Monthly Billing" option must be activated
 - 5. Novtel Software also incorporates a full "Access Control" system, using Tags for entrance to the facility. If this is used in conjunction with "Novtel Self Storage", "Access Control" can be activated here
 - 6. Should your company make use of "Agents", the option to "Force Agent Commission" can be selected here
 - 7. Set the "Reservations overlap" should you choose to do so
 - 8. Set the "Grace Period" on the time when a Unit must be vacated
 - Tick the check-box to activate the "Unique Rate Description". When this option is selected, you will
 not be allowed to enter the same description twice pertaining to naming "Units"

18 Novtel Self Storage - 13 Steps to Mastering the Basics

- 1. Enter the "Unit Code" normally an alpha numeric code in this case the "Code" is BA01
- 2. The "Description" that will explain the "Code", is Block A Unit 1
- 3. Tick the check-box to "Create Grid Number in Pastel" if this option is not selected, every "Unit" will have to be created manually in Pastel
- 4. Select the "Branch" this Storage Unit belongs to. The setup is done in "Edit Branches", and explained on the Forum at <u>http://www.novtel.com/forum/index.php?topic=1531.0</u> (We created the "Branches" according to "Storage Size" - this way all of the same size "Storage Units" will be grouped together on the Grid)
- 5. Click on the magnifying glass next to "Category"

🥬 Add New Grid N	lo			×

5 Step 5 - Creating Items

- Some Storage Companies sell packaging materials in the shop, and all "Items" are created and categorized as "POS and Shop Items", which will include:
 - > Bubble wrap per roll or per meter
 - Corrugated Cartons
 - ➤ Tapes
 - ≻ Labels
 - ➤ Hand Tape Dispensers
 - Stapling Pliers (Office and Industrial)
 - > Staples (Office and Industrial)
- "Payout Items" include the following:
 - ➤ Transport Costs
 - Items for company use, such as coffee; tea; sugar; printing paper and any other "Item" that will be paid from the "Petty Cash" (The function of all "Items" created, will be demonstrated in Step 11 - POS Transactions)

In order to create the above mentioned, click on "Edit - Item - Add New"

6 Step 6 - Creating Suppliers

"Suppliers" can refer to the following:

- > Companies supplying goods that are sold in the shop
- > Courier Services for transporting those goods from the above mentioned "Supplier" to your shop
- > Service Providers who is maintaining the facilities, such as:
 - Garden Services
 - Key and Lock Services
- > The owners of "Storage Units" which are sub-rented

> A local Supermarket that is supplying goods for Company use, such as coffee; tea; sugar etc

Click on "Edit - Suppliers - Add New"

- 1. Enter the "Account Code"
- 2. The "Description" is the "Supplier Company's" name
- 3. Enter the following in the "General" tab:
 - The Postal Address
 - Telephone Number
 - Fax Number
 - Mobile Number
 - Email Address

Suppliers	×
Account Code DEE001 1 Description Dee's Packaging Supplies 2	
General Delivery Addresses	User Defined Fields

7 Step 7 - Creating Customers

"Customers" refer to any Company or individual renting a "Unit", or buying stock from the shop

• Click on "Edit - Customer - Add New"

- Tick the check-box to "Use Customer AutoNumber". The functionality of this option is: whenever an Account Code is created, only the alpha part of the code needs to be typed. The system will automatically check for the next available numeric code, and insert it.
- 2. Enter the "Description"

- 3. "Customer Categories" are created in Pastel, and selected in Novtel should you choose to use this option
- 4. The tick for the "Monthly Customer" will only be selected when the "Customer" rents a unit from month-to month, and not on a fixed contract basis
- 5. In the "General" tab, enter the "Customer's" Postal Address
- 6. Enter the "Tax Reference"
- 7. Select the "Contract Start Date"
- 8. Enter all contact numbers for this "Customer"
- 9. Email Addresses are important, since much of the correspondence will be sent electronically
- 10. Tick the check-box to "Keep E-mails the same" (Or leave it un-checked if different e-mail addresses are used) for the following types of documents:
 - Contact Documents
 - E-mail Documents
 - Contact Statements
 - E-mail Statements

8 Step 8 - Opening a Shift

- It is important to know that transactions can only be done when the Supervisor has opened a shift for the User on duty. A "Shift" must be open when raising and receiving Deposits, as well as receiving Account Payments.
- Novtel Self Storage incorporates an entire shift opening and cash-up procedure function. What this means, is that the "Cash-up Supervisor" will log on using his / her password, and open shifts for each of the other users for each day
- The "User" may then log in and perform transactions throughout the day, and at the end of the day, the day's takings must correspond with the transactions done in Novtel. The supervisor then double checks that the money count is correct, and also that there were no mistakes made in any transactions
- > This is a very powerful and safe way of checking that your business' daily takings are handled correctly
- Cash-up supervisors are able to see exactly how much money was taken and exactly which transactions were done - for each employee during the day
- Once you have created your "Cash-up Supervisor" (Setup Users / Passwords), the "Supervisor" must log in (File menu - Log Off)

How to open a shift:

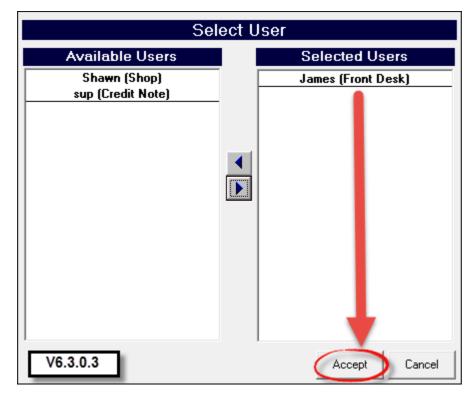

• Click on "Supervisor Open Shift"

🏓 S	upervisor S	Shift Cashup								×
File	Reports	Credit Note								
	View L	ocation: A			-	Supervisor <mark>sup</mark>		Shift #

9.1 Creating Monthly Contracts

When creating "Monthly Contracts", there are three important check-boxes that must be ticked:

1. The specific "Customer" must be classified as a "Monthly Customer"

Edit Customer		V5.2.0.5	
Account Code	F0U001		☐ Inactive Customer
Description	Fourie, David		Monthly Customer
Customer Category	00 - No category	•	
Genera	àl	Delivery Addresses	User Defined Fields

2. The specific "Storage Unit" must be classified as a "Monthly Billed Item"

3. In "Setup - Company - General Tab", the "Activate Monthly Billing" must be selected as "Yes"

×

• In order to create the contract that will run on a month-to month basis, click on "Edit Contract Manager"

1 ^ I

• Click "Add New"

×

• Select the "Monthly Customer"

X	
_	

54

- Select "Month-to-Month" as the type of contract, and select the start date
- We will not set "Escalations" on "Month-to-Month" contracts
- As with "Fixed Contracts", select the payment date; "Add Grid No"; Add fixed items; Raise the deposit; Make the reservation, and "Save" the contract

	•		
		•	

- Right-click on the contract, and select "View Details"
- ×

• In the "General" tab, click on the magnifying glass next to "Category"

V
<u> </u>
<u> </u>

- Click on the "Category" this Unit belongs to, and then "Accept"
- ×

The "Category" has been inserted

- 1. Enter any "Comments and Remarks" pertaining to this contract, in the fields provided
- 2. The date and time that the contract was created, displays in this window
- 3. Enter the "Move-in and move-out" times. The dates are inserted automatically according to your selections when the contract was created
- 4. Select the "Payment Type" from the drop-down list for this "Customer"
- 5. In this case, we will leave the "Status" on "Reserved", since the Unit will only be moved into on the 1st of April. The "Status" can be changed on the day of occupancy when the "Customer" collects the key to move in

×

- 1. Click on the "Financial" tab and see how the "Category" that has been selected, is now used in the "Price Calculation" field
- 2. The "Price (Incl)" is the price for the Unit's monthly rental
- 3. The "Invoice Total" is the total amount, including the "Fixed Items" that has been added to the contract
- ×

- Have a look at the other tabs as well before clicking "Accept" to close the "Reservation Details" window
- On the grid, in front of the "Month-to-Month" contract, "CM" will display short for "Contract Monthly"

- 1		
- 1	×	
- 1	-	

There is a second way in which "Monthly Contracts" can be created - Directly on the Grid

-
<u>^</u>

• Select the "Customer" from the list

¥	e l	L
_	_	l
	_	×

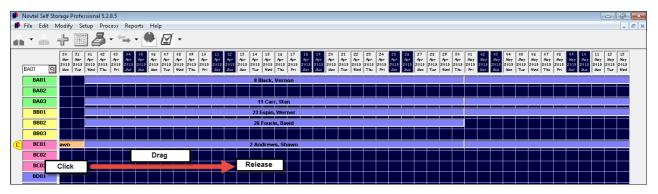

- Enter all details in the "Reservation Details" window's tabs, and click "Accept"
- ×

• The reservation will be displayed on the Grid, with a "M" in front of the reservation

×	п		
		×	
	_	_	

9.2 Creating Short Term Contracts

Short Term bookings are done directly on the grid. Click on the appropriate date when the reservation is to start; hold the mouse down; drag and release of the end date

• Select the "Customer" for this reservation from the "Customer List", or click "Add New" in order to create a new customer

10 Step 10 - Recurring Billing

Open Pastel and make sure that there are no "Open Batches"

In Novtel, the process for monthly billing for "Fixed Monthly"; "Month-to-Month" and "Sub-hire" contracts, are as follow:

• Click on "Process - Recurring Billing"

- 1. Select the Month and Year to be billed
- 2. Click on the "Fixed Contracts" tab
- 3. Click on "Select All" in order to process all invoices
- 4. Click "Update Selected Invoices"

13 Step 13 - Shift Cashup

82

• In order to finalize a shift at the end of each "User's" workday, click on the arrow next to the "POS" icon, and select "Shift Cash Up"

- 1. The "Shift Number" and "User" displays in the top right-hand side of the window
- 2. The "Shift Total" is R8425.00. Notice how the same amount is displayed next to "Shortage Amount". This is due to the fact that the "Money Count" has not been done yet
- 3. Click on the "Money Count" tab

- 1. When the cash is counted, enter the number of notes and coins next to each value, and not the amount the notes and coins represents
- 2. The system will automatically calculate the "Cash Total"
- 3. Calculate the total for "Credit Card" payments, as well as the "Bank Transfers" and enter the amounts
- 4. When you enter the "Float" amount, it will be subtracted from the Total. The "Physical" amount is the combined total for the cash, bank transfers and credit card payments received during the shift
- 5. Should there be a "Shortage" amount, the system will indicate the amount in red for a shortage

🥐 Money Count	0.	V	5.2.0.5
